

## **GP Partner 4-6 sessions**

Are you seeking a change? Thinking of taking your first step into Partnership?  
We have a friendly and supportive team waiting to welcome you!

Our two experienced Partners (who would like to think they are in their prime!) would like to offer a new partnership opportunity. This may suit a doctor who is new to GP and would like to take their first step in a well-supported settled practice, someone new to Partnership with sessional experience, or those simply looking to reduce pace and end their career in rural tranquillity.

Situated between beautiful Dartmoor and the stunning North Devon Coast and close to the market towns of Crediton and Okehampton and the Cathedral City of Exeter, this is an ideal opportunity for someone who is looking to combine traditional, patient-centred general practice with fantastic lifestyle opportunities.

Bow Medical Practice serves a rural population of 5,800 patients and offers dispensing services to our patient community. The practice is a modern, purpose-built building with beautiful views from the consulting rooms, that have doors direct onto a terrace leading into the extensive private garden.

We also have a branch surgery four miles away in the small town of North Tawton, located in a traditional stone building with a relaxed pace and welcoming patient community.

The clinical system is EMIS Web; we offer 15-minute appointments, a daily 30-minute clinical huddle/coffee mid-morning and work hard to share the workload between the whole team to maintain a good work-life balance.

We were rated Outstanding by CQC in 2016 and 2020. We have maintained high QOF outcomes, there is no OOH commitment but opportunity to be involved in PCN delivery if desired.

If lifestyle medicine is your passion, then our team in Growing Well Garden would welcome you too.

To learn a little more about us please visit our website:  
[www.bowmedicalpractice.co.uk](http://www.bowmedicalpractice.co.uk)

We welcome informal contact and are happy to chat over coffee, if you would like to find out a little more please get in touch with our Managing Partner Michelle:
